AMENDMENT

Honorable Commissioner of Patents
Washington, District of Columbia 20231

RECEIVED

MAR 14 2002

Dear Sir:

Technology Center 2600

In response to the Office Letter dated 8/15/01 the following amendments and/or remarks
are respectfully submitted in connection with the above-identified application.

In the Specification:

Please insert a new paragraph at page 7, line 15 as follows:

Frequency multiplication is known in the art and such is well defined in Frequency
Multiplying and Squaring Circuit And Method as US 5587673 issued 12/24/1996 and
Frequency Multiplying Device And Digitally Controlled Oscillator as US 5589985 issued
8/4/1998. Frequency division is known in the art and such is well defined in Frequency
Dividing Circuit as US 5572561 issued 12/24/1996 and Frequency Dividing Device as
US 5680067 issued 10/21/1997. These four documents are incorporated into the present
application by reference and form the basis of know-how and enablement in the
construction and operation of the frequency multiplication and frequency dividing
elements of the instant apparatus under 35 USC 112.

In the Claims:

Dependency has been changed as defined in the Remarks below. Please substitute the
following claims for those of the same number originally submitted.

a 2
5. (Amended) The apparatus of claim 4 further providing a means for signal level control
so as to provide identical levels in the output and input signals.

6. (Amended) The apparatus of claim 4 further providing a means for signal delay control
so as to provide synchronization between the output and input signals.
